TELEGRAPHIC.

WINNIPEG, July 14.

In the British elections there are now 534 members elected to the British parliament, and 136 yet to be elected. Returns now stand conservatives 233, unionists 35, liberals 217, anti-Parnellites 42, Parnellites 7. This leaves the conservatives and unionists 2 majority over the liberals and Irish. The liberals made net gains to-day of 39 seats and only needed 34 to tie. Therefore if the remaining elections go as before Gladstone will have a majority of thirty. It is expected that there will be a majority of fifty liberals and unionists when the elections are all over. The vote in Midlothian was Gladstone 5,840, Col. Wanchope 5,155.

LOCAL.

CRICKET match at Fort Saskatchewan on Friday.

R. SECORD returned from the Landing on Wednesday.

W. GORDON CUMMING, of the Quorn ranch, arrived on Monday's train.

D. DESJARLAIS, fur trader, arrived from Lesser Slave lake on Wednesday.

REV. W. W. ADAMSON, Methodist minister at Victoria, was in town on Tuesday.

A COPY of the journals of the late session of the Northwest Assembly has been received.

REV. D. ARNOT will hold service in Poplar lake schoolhouse on Sabbath next, at 3 p. m.

W. MACDONNELL, of Bears Hill, was in town on Tuesday with a lot of fur, which he sold to W. B. Stennett for $750.

GEO. BLAKE, of Ripley, Ont., a relative of K. Macdonald, one of the pioneers of Edmonton, arrived last week on a visit.

C. SANDISON returned from Battleford last night, having delivered, by flat boat, 60 tons of coal to the Indian Industrial school there.

MR. HUTCHINS, cousin of T. G. and Alf. Hutchings, of Poplar lake, arrived from Ontario county, Ont., last week to look over the Edmonton district.

MISS E. NEELANDS, of Battle river, has commenced the erection of a dwelling, 18x24, with kitchen, 12x16, on lot 77, Methodist mission property, Jas. McDonald, contractor.

A CAMPING party, comprising Rev. C. A. Procunier, Rev. H. Osborne and Misses Osborne, Dalmage and Maxfield, started for Lake St. Ann on Wednesday for a short vacation.

THE Free Press mentions the arrival in Winnipeg of seventeen farmer delegates from Nebraska who will visit Edmonton, Prince Albert and Lake Dauphin before returning home.

J. STANTON, of the county of Lanark, Ont., arrived on Monday's train with several friends to take up land in this district. Mr. Stanton left Edmonton about eight years ago.

A HAIL storm occurred on Tuesday night in the vicinity of Fort Saskatchewan and Edmonton. The storm lasted only about five minutes and the hail was small. No damage was done.

REV. O. GERMAN, formerly Methodist missionary at Saddle lake, has been transferred to Battle river mission, and passed through Edmonton on his way to his new field of labor, on Tuesday.

STURGEON RIVER Milling Co. began grinding on Monday, July 11th. The saw mill has been running since April. This mill is run by water power furnished by Sturgeon river. It occupies the site of the grist and saw mill erected in 1878 by a local company, of which Lamoureux Bros. were managers. The grinding capacity of the mill is 100 bushels per day of ten hours.

A HAIL storm struck Calgary on Saturday, July 9th, which broke a large number of panes of glass in town and killed a few young chickens and turkeys, but did no serious damage. The storm was about three miles wide and came down the valley of the Bow. It occurred in the evening about 7:30. A high wind preceeded the fall of hail. Growing grain was not damaged.

ALFONS VEREECKEN arrived from Belgium on Monday's train to size up the Edmonton district as a field for Belgian settlement. He visited a Belgian settlement in Manitoba before coming west but thinks better of the Edmonton district than of that part of Manitoba. A Belgian settlement has been formed at Baie des Chaleurs, Quebec, which he visited, but as the land there is covered with forest he is not favorably impressed with that locality.

THE Northwest Gazette, of July 2nd, contains the proclamation of erection of 28 Northwest school districts. The first one on the list is South Edmonton, trustees, John Walter, John McKenzie and Jos. Macdonald; the seventh is Beaver lake, east side, trustees, H. A. Deby, A. Moody and M. McCallum; the nineteenth is McKenzie, Beaver Lake, west side, trustees, R. Logan, A. R. McKenzie and D. W. McKenzie; twenty-eighth is Thibault, in township 56, range 26, west of the 4th meridian, north of St. Albert, trustees, Philias Brunette, Joseph Dupuis and Norbert Houle.

A SCHOOL meeting was held at W. Walker's house, Beaver Hills settlement, on Monday last, to decide on the erection of Beaver Hills school district. About twenty-five ratepayers were present. It was decided that the school district should be erected and that the officers should be: Trustees—A. Peebles, J. Whitson, A. Adamson; secretary, T. G. Pearce; treasurer, R. Minnie. The site decided upon for a schoolhouse is on the property of A. Peebles, the west half of section 2, township 54, range 22. This school district includes a part of what was formerly Fort Saskatchewan Protestant school district.

E. NAGLE arrived from the Landing last night, five weeks from Chipewyan, where he passed the winter trading fur. Trade was good last winter, but the weather was very severe. There was no starvation amongst the Indians. Mild weather came in March, and wavies appeared, but a cold snap set in and the wavies disappeared for a full month. Rabbits have become numerous again and all fur bearing animals that live on rabbits have become numerous as well. Mr. Nagle brought out samples of the Athabasca tar, which is supposed to be the same as that found recently at *Egg* lake. John Secord, who was with Mr. Nagle, remained at Chipewyan.

REPORTS regarding the existence of small-pox in Calgary have been much exaggerated. The disease broke out some time ago in a Chinese laundry. When its existence was known the authorities took active measures, at once, burned the laundry and quarantined the sick Chinamen outside the town, north of the Bow, under police guard. At last accounts only three cases had occurred, two Chinamen and one white man. These were all carefully quarantined and attended to. The citizens of Calgary were very much agitated against the Chinese for having kept the fact of their disease secret while distributing washing from the infected laundry, and at one time threatened to run all Chinamen out of town. The laundries are now practically boycotted, and as a result two Chinamen came to Edmonton on Monday's train. There are no reports of the disease spreading at Macleod. The health officer there advertises that any case appearing must be reported to him at once.

MESSRS. R. Vance, W. Brunelle, L. Brunelle and Alf. Beaudry have staked petroleum claims near Egg lake, north of St. Albert, adjoining the land upon which the find previously reported was made. They found lumps of clay saturated with tar in seven different places on the quarter section upon which they located, by digging a foot or two. In some of the lumps the tar was in streaks of semi-liquid. In the hole dug on the tar seam by the original prospectors, some rain had fallen, which had diluted the tar and caused an oily substance to float on the top of the water. This was skimmed off and secured in a bottle. On being uncorked the bottle gives a slight smell of coal oil, which is lost if the bottle remains uncorked any length of time. After being corked for a while it regains the smell of oil. The smell of the tar in the hole dug on the seam was so strong as to be unbearable for any length of time. The tar has exactly the same smell and appearance as the substance used to grease railway car wheels. The location given the original discovery in last issue was wrong. It is on the southwest quarter of section 30, township 56, range 25 west of the 4th meridian, the homestead of R. G. Jaquish.

G. KOERMAN, of the Nordwesten, the German newspaper of Winnipeg, has a long article in the most recent issue of that paper descriptive of the Edmonton district as seen by him during his recent visit. On reaching the town he was pleased and surprised at the number of fine residences. The town is well supplied with stores, hotels, banks and all the other lines of business necessary to carry on the trade of a large country. It is the second largest place in the Territories west of Regina. From Edmonton he drove to St. Albert settlement, which he describes in glowing terms, the park like appearance of the country, the large numbers of good farm houses, the deep black mould of the soil, the well grown crops, considerably in advance of those seen along the railroad line in Manitoba and Assiniboia. The soil seems deeper than in any part of Manitoba. He next visited Stony Plain where a large German settlement is located. Several of the Germans who had settled there had written him descriptions of the locality, but he could never believe it was as good as he found it. One woman informed him that from 4½ bushels of potatoes planted last year she had raised 300 bushels. He could hardly believe it, but the statement was erroborated by other parties. The same woman had sold $200 worth of butter last year in Edmonton. The people were prosperous and contented in every case. He had not time to visit the Beaver Hills and Rabbit Hill settlements, but on his returnhe visited the Battle river settlement, where he found the country good and the people well satisfied. The advantages of the whole district appeared to be in its greater abundance of timber, so that every man might have a clump of woods on his farm, as well as open prairie, the greater depth of black soil, exceeding that of Manitoba or Ontario; greater freedom from destructive summer frost than in Manitoba; and better advantages for raising cattle on account of the ranker growth of grass, the better water supply and the milder winters. The cattle were in better condition than he had seen anywhere on his travels.

GENERAL NEWS.

Boissevain, Manitoba, reports a wind and hail storm damaging the crops on July 3rd.

Medicine Hat complains of drouth. The thermometer stood at 100 degrees recently.

Nez Perce Sam, the Piegan Indian who was recently sentenced to death for the murder of a medical man, has had his sentence commuted to imprisonment for life.

The Winnipeg Commercial says the general crop in Manitoba is late, though some very early sown fields are well advanced. Very late sown grain is a complete failure.

Qu'Appelle Vidette: "Mr. J. A. Macrae, Inspector of Protestant Indian Schools, does not think the Industrial schools fulfil their mission, owing to their being under clerical control. In his annual report to the Indian department he says: "No very marked lines has yet appeared between the boarding and industrial schools. The latter have not yet assumed the character that their name suggests. Small children of too tender years for industrial training (as such training is coming to be known in the world's schools) and the children physically unfit for training that requires strength, have been taken into these institutions. The consequence is that, in many instances, they continue to be little more than boarding schools, though supplied with instructors and appliances for carrying on industrial work. The government provides means, directly or indirectly, and expects pupils to be trained as artisans or agriculturists. But the churches control the schools and aim often primarily at the formation of religious character, to this end obtaining as pupils children of most tender years. These, fit inmates as they are for boarding, are quite unsuitable for industrial schools. The age at which the mind is most plastic is not the one best suited for manual training which involves physical labor. Observation daily teaches that very young children might be boarded at less expensive schools than the industrial, and that these latter to be effective should be made more exclusively and distinctively of that type which their appellation suggests."

PIONEERS' RIGHTS.

The Lethbridge News has a long article on the treatment which the town of Macleod is receiving at the hands of the C. & E. railway and includes the case of Edmonton. The News says: "We do blame the system of government that allows such things to be done, and we cannot but think that cases like this must have their effect in discouraging investment in a new country. When a town has been established for years, as is the case with Macleod, and also of Edmonton, where the same railway company have recently taken somewhat similar action, its citizens and those who have invested in it, have certainly acquired rights which the government should, if not from a sense of justice, at least in the interest of the country, endeavor to protect. Pioneers in a new country deserve encouragement, and it is a strange kind of encouragement when a man, as many in Macleod and Edmonton have done, have spent the best years of their life in assisting to develope the country and have invested all their hard won earnings in the town in which they live, for the government to allow a few eastern capitalists to kill their town and render the investments of pioneers worthless. The government have given a bonus out of the pockets of the people of Canada to this railway company, and when doing so should have given it conditionally on the rights of towns like these being respected. As it now stands the people of Canada, including those of Macleod and Edmonton, are being taxed to give financial aid to a railway company that is in its own interests ruinning the pioneers of those two places. Could a stranger and more unjust state of things be well imagined?"

Qu'Appelle Vidette: The series of papers set at the examinations for promotion in our Public Schools, last week, seem, on the whole, well calculated to to test the acquirements of the pupils, though there is a lack of unformity in the degree of difficulty of papers in different subjects. The comparative value of subjects appear, also, to have been overlooked; for instance, a full paper on composition was valued only at 62 marks, while for a very elementary paper on history the maximum was 100. As the papers were to be examined by as many different persons most clear and definite rules as to marking should have been laid down, yet we can quite conceive that many different plans were actually adopted, all in accordance with the directions issued. Yet these are all minor points to the fact if this examination is to be a uniform test of our schools, the papers must be examined by the same individual. With the most honorable intentions on the part of every teacher, it is certain that there must be great variations in their judgement of answers; that one will be more severe or more lenient than another goes without saying. Of course it is too much work to impose on the inspector, but we would suggest at a very small cost it would be possible to get individual teachers in the Territories, or Manitoba, to deal with the whole number of papers on the subject, and thus ensure that they would be marked fairly on their merits; free from individual idiosyncracies. Then, but not now, the results of the examination could be considered as practically setting the status, and equalizing the grading of our schools.

THE LAND OFFICE.

The Regina Leader has the honor of being the only newspaper in the Northwest to publish anything to throw discredit in the recent action taken by the people of Edmonton to protect their own and the public interest in the land office matter. Under the head of "The Edmonton affair" the Leader says:

"One of our subscribers favors us with the following extract from a private letter received by him from a friend at Edmonton, with regard to the recent disturbance there and which throws some new light on that occurrence:

"Edmonton is passing through a crisis. The Dominion government wish to move their land office across the river so as to permit immigrants on their arrival to obtain land without crossing the river. In fact the choice free lands are all taken within a radius of 15 or 20 miles from North Edmonton. Well, of course, this means, as there is not a bridge, the loss of custom to merchants in North Edmonton and the booming of South Edmonton, and as the merchants admit, had they land south of the river they would endeavor to get the land office there. You see they have no fine feelings on the matter at all, just simply their own pockets, and they have instigated a number of irresponsible people to actually carry arms and defy the authorities. The land agent here is a worthy old gentleman, beyond any taint of unfair or crooked dealings, in fact not one of his enemies can say anything against his honor. Moreover, he is a trusted servant of his department. The Dominion government should show all these rebels no favors and instruct the police to put down the riot with a firm hand and teach them that mob law may rule in New Orleans, but not in Canada, and especially our great and grand Northwest.

"Even suppose that the land agent was wrong in moving his office, the people of the town (?) had not the slightest reason or right in acting in such a lawless manner; it is not the duty of the government to help owners of property to boom townsites, and the government surely have the power and right to put their land office where it will convenience new settlers more than old ones, who should at least, be acclimatized and able to rustle along.

"The resolutions passed in St. Albert have not been sanctioned by any of the leading business men, and, in fact, their sympathy is with the government land agent. These are the unbiased views of anyone not a boomer."

Farmers Attention.

My stock of McCormick Reapers, Mowers and Rakes, is now on the way from Chicago.

Having sold out the Implements, wagons, etc., already received, my warehouse, on Jasper Avenue, will be closed until July 1st, when my new stock will be on hand for exhibiiton, sale and delivery.

Orders for the above machinery will be received at my office, John Mackenzie's Blacksmith shop, South Edmonton, until above date.

PIC-NIC.

A very pleasant and successful Sunday School pic-nic was held at Poplar lake on Wednesday, July 13th, in J. Fielders' grove. There was a very large attendance of the people of Poplar lake and Sturgeon settlements, besides a number from town. Refreshments were served during the afternoon by the ladies connected with the Sunday School. A very entertaining programme was rendered by the children and their friends as follows: Address by the chairman, Mr. Rye; song by the Sunday School children; address by Rev. Canon Newton; duet by Mrs. Cummings and Miss Rosewell; song by Miss Maggie Shand; recitation by Miss Rye; song, "Red, White and Blue," by four Shand children; address by Rev. Mr. Arnot; reading by Miss Shand; address by Rev. Mr. Elmitt; piano solo by Mrs. Jellett; piano solo by Mrs. Mitchell; "God Save the Queen," by all. Miss Rosewell played the piano accompaniments. The weather was fine during the afternoon, but the usual pic-nic shower occurred early in the evening before all had reached home.

THERE was an important auction sale of horses on Wednesday afternoon last at M. McCauley stable. Three Clyde stallions and a Clyde mare and colt, brought from Ontario this spring by A. Begg, were sold, together with about 30 ranch horses, belonging to Isaac Potter. The attendance of farmers was fair. The registered aged stallion "Ringer" was sold to R. McKernan, South Edmonton, for $330. The three year old "Gleaner" was sold to Z. Fleming, Belmont, for $490. The two year old "Major Boy" was sold to Geo. Long, Sturgeon river, for $200. The Clyde mare and colt were purchased by Malcolm McDermott, of Stony Plain, for $225. The ranch horses, belonging to Mr. Potter, sold at an average price of about $50, the prices running from $11 for a colt to $111 for one horse. The stallions "Ringer" and "Gleaner" had travelled this season and their earnings went with them.

LUDWIG DIESZBROCK, representing Spiro & Co., agents for the Allan line of steamships, Hamburg, visited the Edmonton district last week in the interest of German immigration. He visited the German settlements at Stony Plain, Rabbit Hill and Beaver Hills and found them all prosperous and contented. The original settlements made last summer by the colony from Dunmore, Assa., have been very greatly increased this season by arrivals direct from Germany and from Manitoba and Ontario. Mr. Dieszbrock has taken a list of the homesteads entered for by Germans in the Edmonton district and finds that they amount to 160. As these have been taken almost entirely by heads of families, estimating five to a family, which is certainly not over the mark, it shows that the German population of the Edmonton district has increased from nothing on May 1st of last year to 800 at this date. Mr. Dieszbrock says that the Edmonton district seems to suit the German people exactly. It is what they have been looking for all the time, and he predicts a great influx of Germans to this part of the Northwest next year. Many who have come out from Germany to other parts of Canada and who have not yet settled, and there are a large number of such, will, he believes, head for Edmonton at once. Mr. Dieszbrock has visited British Columbia and will call at all the principal German settlements in the Northwest and Manitoba on his return east.
